

Onpoint

Take the guesswork out of personalized learning today, with Onpoint.

Onpoint Score: 541

What is Onpoint?

Onpoint is a single number score that gauges school and district implementation of personalized learning.

Onpoint:

- Compares against benchmarks
- Tracks progress over time
- Identifies strengths and focus areas

The Onpoint report includes feedback on multiple components of personalized learning, alongside a set of recommendations so that school and district leaders can focus their efforts to improve individualized instruction.
